

Math Cut Ups

Grade 5 STAAR Review

Includes 34 station activities
from the titles listed below

Copyrighted materials-not reproducible

Category 1	Decimal Value True or False	Category 3	Classifying Triangles	
	Number Form x 5		Coordinate Graphing True or False	
	Number Notation Mystery		Crafty Conversions	
	Ordering Operations		Customary Challenge	
	Prime and Composite Patterns		Dimensional Analysis	
	Rounding Decimal Review		Grapher's Revenge	
Category 2	Additive vs Multiplicative Relationships		Metric Mirth	
	Correct or Incorrect: Multiplication & Division		Polygon Attribute Sort	
	Name My Denominator		The Quadrilateral Family	
	Picturing Decimal Operations: Multiplication & Division		Visualizing Volume	
	Picturing Fraction Operations: Addition & Subtraction		What's the Question? Perimeter, Area, & Volume	
	Picturing Fraction Operations: Multiplication & Division		Category 4	Budget Balance
	Predicting Profits			Dealing with Data Displays I
	Problem Solving in Operations: Intermediate Level	Displaying Data Relationships		
	Problem Solving in Operations: Elementary Equations	Payroll Practice		
	Reasonable Solutions	Tackling Taxes		
	Representing Relationships			
	Wrestling with Word Problems			

For all materials:

- Laminate all materials before using for longer durability.
- Cut card sets apart and place in baggies or envelopes for each small group or station.
- Label each activity set for easier organization and use.
- Use with student groups to encourage student-to-student dialogue.
- Differentiate for the specific abilities of a student or group (Special Education, ELL, GT) by removing/adding cards.
- Have reference materials available for students to find information.
- Encourage students to record key information from the activities in a math notebook.
- Encourage students to generate additional examples for each activity set.
