

Math Cut Ups

Grade 5 Sampler/TEKS Review

Includes 34 station activities from the titles listed below

Copyrighted materials-not reproducible

Category 1	Decimal Value True or False	Category 3	Classifying Triangles
	Number Form x 5		Coordinate Graphing True or False
	Number Notation Mystery		Crafty Conversions
	Ordering Operations		Customary Challenge
	Prime and Composite Patterns		Dimensional Analysis
	Rounding Decimal Review		Grapher's Revenge
Category 2	Additive vs Multiplicative Relationships		Metric Mirth
	Correct or Incorrect: Multiplication & Division		Polygon Attribute Sort
	Name My Denominator		The Quadrilateral Family
	Picturing Decimal Operations: Multiplication & Division		Visualizing Volume
	Picturing Fraction Operations: Addition & Subtraction	What's the Question? Perimeter, Area, & Volume	
	Picturing Fraction Operations: Multiplication & Division	Category 4	Budget Balance
	Predicting Profits		Dealing with Data Displays I
	Problem Solving in Operations: Intermediate Level		Displaying Data Relationships
	Problem Solving in Operations: Elementary Equations		Payroll Practice
	Reasonable Solutions		Tackling Taxes
Representing Relationships			
Wrestling with Word Problems			

For all materials:

- Laminate all materials before using for longer durability.
- Cut card sets apart and place in baggies or envelopes for each small group or station.
- Label each activity set for easier organization and use.
- Use with student groups to encourage student-to-student dialogue.
- Differentiate for the specific abilities of a student or group (Special Education, ELL, GT) by removing/adding cards.
- Have reference materials available for students to find information.
- Encourage students to record key information from the activities in a math notebook.
- Encourage students to generate additional examples for each activity set.

A list of TEKS addressed at each station is included on the included category cover pages.

Optional student recording pages and student station instruction cards are available for download at www.mathcutups.com/home/downloads.

A **suggested KEY** for these activities is available in electronic form. E-mail integralmathematics@gmail.com to request the document. The multi-page document was not included in this package to keep the cost as low as possible.
